Overall Length:

9.67 inches

Mechanical Connection Size:

1/4 - 18 npt

Measurement Range:

-2000.0 to 2000.0 pounds per square inch

Product Name:

Coplanar scalable pressure transmitter

Special Features:

Transmitter output: 4-20 ma; measurement type: differential; span accuracy: 0.025 pct; lcd display

Supplementary Features:

Explosion proof; dust ignition proof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
