| Overall Length:                 |
|---------------------------------|
| 0.110 millimeters               |
| Overall Height:                 |
| 176.0 millimeters               |
| End Application:                |
| Calibration                     |
| Criticality Code Justification: |
| Feat                            |
| Special Features:               |
| Fit restriction; weight: 0.6kg  |
| Material:                       |
| Aluminum alloy                  |
| Shelf Life:                     |
| N/a                             |
| Unit Of Measure:                |
|                                 |
| Demilitarization:               |
| No                              |
| Fiig:                           |
| T179-b                          |
