Overall Length:

1.06 inches

Product Name:

Desiccator plug

Special Features:

Aluminum body & cap (iaw qq-a-225/5-/6, metal surfaces mil-a-8625e, type ii, classii, sulfuric anodized, dyed black. Outside o-ring synthetic rubber. Dimensions: hex cap: 0.875" across flats. Two wire holes, humidity indicator care: 30%, 40%, 50% rh, molecular sieve type 4a. Desiccator holds approximately 3 grams of desiccant. Humidity indicator range: 30%, 40%, 50% rh at 75 degree f. Temperature correction factor: 2.5% rh per 10 degree f above or below baseline temp of 75 degree f. Color change data: indicator spots changes from a pink color in humid conditions to blue to dry conditions. Indicator spots are reversible.

Material:

Aluminum alloy

Style Designator:

Plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A43400
