Overall Length:

3.0 inches

Actuation Method:

Pressure sensing element

Electrical Connection Controlling Agency:

38056

Product Name:

Pressure transducer

Special Features:

Case: 300 series stainless steel; 1/8 npt male or female; output signal: 4-20ma (2 wire); operating: -28 to 82°C; storage: -54 to 121°C; electrical connection: 4-pin bendix;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-e
