Graduation Unit:

0.100 pounds per square inch

Actuation Type:

Differential transformer

Scale Range:

-30.0 to 50.0 degrees celsius

Scale Name:

Differential pressure

Pointer Color:

White

Scale Type:

Digital

Scale Smallest Increment:

0.0 pounds per square inch

Actuating Element Material:

Steel, corrosion resisting, aisi 316

Connector Type Vent:

Not provided

Product Name:

Gage pressure module

Special Features:

1/4" npt, 1/4" bsp/iso, and m20 male addapters are included for compatibility. A rugged urethane overmolding protects and seals each module from shock, dirt, and moisture.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
