**Mounting Hole Diameter:**

2.125 inches

**Current Type:**

Dc

**Dc Voltage Rating:**

Between 12.0 volts and 16.0 volts

**End Application:**

R18 flp assembly

**Presentation Type:**

Dial

**Scale Range:**

+100.0 to 280.0 degrees fahrenheit single indicator single scale

**Accuracy Rating:**

2.0 degrees fahrenheit single indicator single scale

**Product Name:**

Indicator, temperature

**Special Features:**

This indicator has a warning feature which is tripped at 200 degrees

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A533y0
