Overall Diameter:

Between 1.865 inches and 1.869 inches

Construction Type:

One-piece

Overall Thickness:

Between 0.145 inches and 0.149 inches

Dial Aperture Shape:

Round

Dial Aperture Size:

1.812 inch diameter plus or minus 0.003 inch

Dial Aperture Knob Cutout Feature:

Not included

Material:

Aluminum alloy, ww-t-700/6

Material:

Aluminum alloy 6061

Material Specification:

Ww-t-700/6 federal specification single material response

Fsc Application Data:

Engine instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T174-h
