**Mounting Type:**

Portable

**Power Source:**

Electric motor

**Generator Voltage Range In Volts And Current Type Accommodated:**

+0.0/+115.0 ac

**Phase:**

Single

**Special Features:**

Measures resistance and air flow rates of demand type regulators, hi and lo pressure, 25 in lg, 10.75 in wide 7.5 in high, do not use for oxygen systems

**Frequency In Hertz:**

60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T361-f
