End Application:

Instr panel, bell, p/n 206-070-554-3/-7

Model Number:

C43/c47-type1

Functional Description:

Electric transmission oil temp and pressure /dual/ indi

Reference Data And Literature:

Raaf t.O. Aap 7210.010-4, figure 72, index 8

General Description:

Combination indicator transmission oil pressure and temperature; 0.0 to 15.0 psi oil pressure range, left side dial; 0.0 to 15.0 degrees c temp range, right side dial; dial marking increments 0-5-10-15; increment unit 1; panel bracket mtg; 1: 10 /x10/ mark ratio

Type/model Designation:

206b-1

Specification Data:

97499-206-070-557-1 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
