Overall Diameter:

Between 3.110 inches and 3.120 inches

Construction Type:

One-piece

Overall Thickness:

Between 0.185 inches and 0.195 inches

Mounting Method:

Solder

Instrument Size For Which Designed:

3.005 in. To 3.010 in. Dia

Dial Aperture Shape:

Circular

Dial Aperture Size:

2.7500 in. Min to 2.7550 in. Maximum dia

Dial Aperture Knob Cutout Feature:

Not included

Material:

Nickel-iron

Material:

Nickel alloy

Surface Treatment:

Nickel

Surface Treatment:

Nickel plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T174-h
