Overall Height:
26.000 inches
Product Name:
Plano-interferometer
Special Features:
Measure flatness master reference certified 1/10 fringe min. Or to 0.0000001 inch over the entire aperature; working aperature 5" dia.;
dimension work table 8 inches by 8 inches
Functional Description:
Fmeasures surface flatness of materials such as polished glass or crystal, or lapped metal surfaces sufficiently flat enough to reflect light;
designed for use either in the lab or on production line
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
Fiig:
