General Description:

No

3 silicon photovoltaic cells with glass filters designed to match spectral response of color films; measuring ranges color temp from 2500 to 30000 k, illuminance 1 to 25000 footcandles; accuracy porm 5 mireds; 2 4-volt batteries; 8.75 in. H, 6.75 in. W, 2.75 in. Thk; foam lined carrying case

Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
