Cylinder Material:

Plastic

Design Type:

Valve

Thermometer:

Not included

Capacity Rating:

Between 50.0 milliliters and 500.0 milliliters

Extension Tube:

Included

Gage:

Not included

Cylinder Outside Diameter:

19.000 inches

Special Features:

Flow proportional cycle control, 1 sample per bottle; 3/8 in. Id suction hose, 24 polypropylene sample bottle, rechargeable 12 v battery; controls in watertight compartment, ice compartment in base for sample cooling

Height:

22.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-c
