General Description:

No

Spallyimide appareulated constant an allow copper control terminals, appraising terms range m100,400 degrees for 250 obms resistance, norm
Spolyimide encapsulated constantan alloy, copper-coated terminals, operating temp range m100-400 degrees f; 350 ohms resistance, porm
0.3 pct.; gage length 4.75 mm., length 9.83 mm., 4.57 mm w, matrix length 12.3 mm, matrix 6.9 mm
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
