General Description:

No

Provide an in situ measurement up to eight parameters in	ncluding conductivity,	temperature, salin	ity, depth,	dissolved oxygen	, ph, sound
velocity, turbidity, and specific ion, temperature -5 to 45 d	legree c, o/a h 41.3 c	m, max diameter 1	0 cm		

Provide an in situ measurement up to eight parameters including conductivity, temperature, salinity, depth, dissolved oxygen, ph, sound
velocity, turbidity, and specific ion, temperature -5 to 45 degree c, o/a h 41.3 cm, max diameter 10 cm
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
