Major Components:

Hydraulic absorbing unit; self contained heat exchanger; dual range electric tachometer

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Designed for load testing electric motors in range 5 to 200 hp, 1750 to 4000 rpm

Special Features:

Measures speed, torque and hp; measures temperature rise in operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
