**Major Components:**

Hydraulic absorbing unit; self contained heat exchanger; dual range electric tachometer

**Inclosure Feature:**

Multiple item w/housing

**Test Type For Which Designed:**

Designed for load testing electric motors in range 5 to 200 hp, 1750 to 4000 rpm

**Special Features:**

Measures speed, torque and hp; measures temperature rise in operation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
