**Terminal Quantity:**

12

**Terminal Type:**

Screw

**End Application:**

Used onboard 270 ft wmec cg vessels

**Electrical Connection Quantity:**

1

**Special Features:**

Used with 100 ohm platinum resistance temperature detector; temperature span 20 through 140 degrees centigrade; output 0-1 ma

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T145-b
