Terminal Quantity:

12

Terminal Type:

Screw

End Application:

Used onboard 270 ft wmec cg vessels

Electrical Connection Quantity:

1

Special Features:

Used with 100 ohm platinum resistance temperature detector; temperature span 20 through 140 degrees centigrade; output 0-1 ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T145-b
