Overall Length:

35.380 inches

Overall Diameter:

0.750 inches

Special Features:

Operating temperature range minus 18.0 degrees c to plus 70.0 degrees c; output impedance 100 ohms; core 12.000 in.Lg; coil formaterial high density, glass-filled polymer; housing material aisi 400 seriess tainless steel; lead wires 28 awg, stranded copper, polytetrafluoroethylene-insulated, 12.000 in.Ln.Lg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
