**Overall Length:**

6.500 inches

**Overall Width:**

3.625 inches

**Product Name:**

Radiometer, ultraviolet

**Special Features:**

Sensitivity range 0 to 19.99 mw/cm squared; wavelength 250 to 380 nm; powered by 9 v battery

**Functional Description:**

When used with the ultraviolet sensor (p/n 97-0016-01) provides the capability for measuring ultraviolet radiation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T134-c
