**Overall Length:**

14.000 inches

**Overall Height:**

5.250 inches

**Overall Width:**

8.500 inches

**End Application:**

A-10a aircraft

**Special Features:**

115 vac, 50/400 hz, digital display for altitude and pressure

**Functional Description:**

Used to maintain functional calibration of all pneumatic elements of the inertial navigation system

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T179-b
