Product Name:

Semiautomatic pneumatic pressure calibration system

Special Features:

2item consists of a proportional control valve, pressure transducers, pressure limiters and relief valves, emergency vent valve, microprocessor, display, printer, remote control terminal and centralized control panel; also includes adapter kit

Functional Description:

Features high accuracy and repeatability; pressure range of interest is the air data region approximately 0-100 inches of mercury; tests altimeters, ttu-205 pressure temperature test sets, barometers, air data simulator/testers, pressure gages, pressure switches and transducers; can also calibrate vacuum, absolute and compound gages within its range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
