Overall Length:

12.000 inches

Overall Height:

5.000 inches

Overall Width:

15.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Operation Method:

Manual

Power Supply Type:

Transformer

Phase:

Single

Special Features:

Speed contriller for any hd series digital dynamometer, speed control 0 to 36000 rpms, used for testing of electric motors, two control modes torque and speed, plots x/y curves during tearing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T121-a
