Overall Length:

4.900 inches

Overall Height:

1.800 inches

Overall Width:

3.380 inches

End Application:

Kc-135r aircraft turbine engine monitoring system

Voltage In Volts And Current Type:

28.0 dc

Special Features:

Four digit digital display permits rapid flightline interrogation of system without the need for diagnostic display unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
