Current Type:

Dc

End Application:

F110 turbo fan engine

Voltage Rating:

28.0 volts

Special Features:

Length before extension 21.660 inches; full extension length 28.490 inches; dry weight 6.5 lbs; provides synchronization from exhaust nozzle to cockpit indicate nozzle position f-16c/d acft

Fsc Application Data:

Transducer, position feedback nozzle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T145-b
