Circuit Current For Which Designed:

Dc

Movement Type:

Moving coil, permanent magnet

Movement Suspension Method:

Jewel pivot base

Special Features:

Humidity and vibration resistant; operating temp range m20.0 to p100.0 degrees c; dc resistance 400.0 ohms

Surface Treatment Specification:

Fed-std-595 federal standard all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
