**Circuit Current For Which Designed:**

Dc

**Movement Type:**

Moving coil, permanent magnet

**Movement Suspension Method:**

Jewel pivot base

**Special Features:**

Resistance values of moving coil 200.0 ohms; shunt 310.0 ohms; series 880.0 ohms 1/4 watt metal film resistors; vibration and humidity resistant

**Surface Treatment Specification:**

Fed-std-595 federal standard all treatment responses

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A310a0
