Circuit Current For Which Designed:
Oc
Movement Type:
Moving coil, permanent magnet
Movement Suspension Method:
Jewel pivot base
Special Features:
Resistance values of moving coil 200.0 ohms; shunt 310.0 ohms; series 880.0 ohms 1/4 watt metal film resistors; vibration and humidity
resistant
Surface Treatment Specification:
Fed-std-595 federal standard all treatment responses
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
A310a0
