Circuit Current For Which Designed:

Dc

Movement Type:

Moving coil, permanent magnet

Movement Suspension Method:

Jewel pivot base

Special Features:

Resistance values of moving coil 200.0 ohms; shunt 310.0 ohms; series 880.0 ohms 1/4 watt metal film resistors; vibration and humidity resistant

Surface Treatment Specification:

Fed-std-595 federal standard all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
