Circuit Current For Which Designed:
Dc
Movement Type:
Moving coil, permanent magnet
Movement Suspension Method:
Jewel pivot base
Special Features:
Operating temp range m20.0 to p100.0 degrees c; meter range 697.0 to 853.0 ma; humidity and vibration resistant
Surface Treatment Specification:
Fed-std-595 federal standard all treatment responses
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A310a0
