Circuit Current For Which Designed:

Dc

Movement Type:

Moving coil, permanent magnet

Movement Suspension Method:

Jewel pivot base

Special Features:

Operating temp range m55.0 to p100.0 degrees c; humidity and vibration resistant; shunt and series resistance range 220.0 to 895.0 ohm;

1/8 watt metal film resistors

Surface Treatment Specification:

Fed-std-595 federal standard all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
