**Circuit Current For Which Designed:**

Dc

**Movement Type:**

Moving coil, permanent magnet

**Movement Suspension Method:**

Jewel pivot base

**Special Features:**

Humidity and vibration resistant; operating temp range m55.0 to p100.0 degrees c; meter range 2.750 to 2.225 ma

**Surface Treatment Specification:**

Fed-std-595 federal standard all treatment responses

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
