Meter Movement - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6695-01-246-0877

Circuit Current For Which Designed:		
Dc		
Movement Type:		
Moving coil, permanent magnet		
Movement Suspension Method:		
Jewel pivot base		
Special Features:		
Operating temp range m55.0 to p100 degrees c;	humidity and vibration resistant;	shunt series resistor networks are 1/8 watt metal film type
330.0 to 875.0 ohm		
Surface Treatment Specification:		
Fed-std-595 federal standard all treatment respo	nses	
Shelf Life:		
N/a		
Unit Of Measure:		
Demilitarization:		
No		
Fiig:		
A310a0
