Special Features:

C/o transmitter p/n tk-6t, and detector p/n tk-16 w/carrying case; 9-600v range; 2 lbs

Functional Description:

Transmitter causes high-freq magnetic field to be applied to attached conductor; detector visually/audibly indicates which circuit carries magnetic field

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
