Terminal Type:

Screw

Overall Length:

5.310 inches

Overall Height:

5.060 inches

Overall Width:

3.690 inches

Frequency Rating:

Between 350.0 hertz and 450.0 hertz

End Application:

Marine gas turbine Im-2500 engine

Phase:

Single

Special Features:

Transducer shall be marked with its appropriate ge part number and a unique serial number per mil-s-td-130

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-b
