**Overall Length:**

4.625 inches

**Overall Height:**

4.750 inches

**Overall Width:**

8.625 inches

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Electrical Power Source Relationship:**

Operating

**Operation Method:**

Manual

**Power Supply Type:**

Transformer

**Phase:**

Single

**Special Features:**

Speed contriller for any hd series digital dynamometer, speed control 0 to 36000 rpms, used for testing of electric motors, two control modes torque and speed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T121-a
