Overall Length:

5.070 inches

End Application:

Pacer special

Cylinder Material:

Aluminum

Design Type:

Valve or cylindrical

Thermometer:

Not included

Capacity Rating:

10.0 cubic centimeters

Extension Tube:

Included

Gage:

Not included

Cylinder Outside Diameter:

1.250 inches

Special Features:

Viton seals per mil-r-83248, type1, class 1; operation push to connect, pull sleeve to disconnect; pressure rating 150 psi proof; usage may be used w/ ad-4002 and 3 by attaching e-1452-4h4 male connector to inlet port; mates with s-w's e-1452-4-series male disconnects; use tool p/n sk 1446-4 for disassembly and reassembly; zero-air/sampl-air-airless fluid sampling coupling syringe assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T398-c
