Current Type:

Dc

Frequency Rating:

2048.0 hertz

End Application:

Wj-9207; alarm clocks, pagers, timers, etc.

Voltage Rating:

1.5 volts

Special Features:

Bsmall size and light for versatile usage; high reliability and long life, no electrical noise, low current consumption yet high sound pressure level and clear sound and stabilized sound quality.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-b
