Overall Length:

14.000 inches

Overall Height:

23.500 inches

Overall Width:

12.000 inches

Voltage In Volts And Current Type:

115.0 ac

Special Features:

Plano-interferometer, working aperture 2 1/2 inch, accuracy 1/10 fringe (1/20 wave), light source helium neon laser at 6328 angstroms (one fringe = .0000124 inch) yellow laser at 5941 angstroms, reference flat is fused quartz, 7 x 7 inch work table, 5 inch adjustment range, 2x magnification

Color:

Ivory

Material:

Iron and aluminum alloy

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
