Overall Height:
14.0 millimeters
Overall Diameter:
58.4 millimeters
Product Name:
Pyroelectric joulemeter
Functional Description:
Converts laser energy into heat to generate a current in a capacitive load circuit to create a voltage proportional to the laser energy
Thread Size And Series/type Designator:
8-32 unc
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23900
