General Description:

Half effect gear tooth sensor; plastic probe; voltage - 4.5 vdc to 24 vdc; supply current maximum (ma) @ 25 degrees c - 20; output type - sink; output current maximum (ma) - 40; termination type - lead wire; operating temperature range - minus 40 degrees c to 150 degrees c; output voltage - 0.4 (v) max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
