Terminal Quantity:

5

Overall Length:

2.615 inches

End Application:

Icas system, electric power generation system

Electrical Connection Quantity:

3

Special Features:

9specific pressure range: negative 30 inches mercury to positive 150 psi; reverse polarity protection; compensated temp range: 0 degrees c to 65 degrees c; overpressure: 2 times rated pressure; material: wetted parts and sleeve of 316 stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T145-b
