Overall Diameter:

80.0 millimeters

Product Name:

Net radiometer

Special Features:

Spectral response 0 to 100 microns; sensitivity type 10 microvolts/w (sqrd); operating temperature range -30 to 70 degrees c; range form 2000wm(sqrd) ; 3 meter cable; support arm 16 mm dia, 400mm long

General Description:

Used for measurement of net radiation (0 to 100 microns (thermal)) which is the balance between incoming & outgoing radiation under outdoor conditions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
