**Overall Length:**

19.000 inches

**Overall Height:**

9.000 inches

**Overall Width:**

20.500 inches

**End Application:**

Used to test 4920-01-307-7245, r/n daa3272p016-171, which is used on the b-2 aircraft

**Voltage In Volts And Current Type:**

115.0 ac

**Product Name:**

Dynamometer, digital control

**Reference Data And Literature:**

Mfg commercial literature and serd

**Supplementary Features:**

Uses transducer, r/n 2610-512ds which provides torque and speed data to this unit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
