Electronic Dynamometer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6695-01-520-3856

Overall Length:
19.000 inches
Overall Height:
9.000 inches
Overall Width:
20.500 inches
End Application:
Used to test 4920-01-307-7245, r/n daa3272p016-171, which is used on the b-2 aircraft
Voltage In Volts And Current Type:
115.0 ac
Product Name:
Dynamometer, digital control
Reference Data And Literature:
Mfg commercial literature and serd
Supplementary Features:
Uses tranducer, r/n 2610-512ds which provides torque and speed data to this unit
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23900
