Overall Length:

19.000 inches

Overall Height:

9.000 inches

Overall Width:

20.500 inches

End Application:

Used to test 4920-01-307-7245, r/n daa3272p016-171, which is used on the b-2 aircraft

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Dynamometer, digital control

Reference Data And Literature:

Mfg commercial literature and serd

Supplementary Features:

Uses transducer, r/n 2610-512ds which provides torque and speed data to this unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
