Width:

60.0 millimeters

Length:

65.5 millimeters

Current Type:

Dc

Dc Voltage Rating:

24.0 volts

Case Material:

Plastic

Special Features:

Power consumption - 1.7w; electrical connection - m12 connector (male) 5 pole; travel length - 30 mm; has microprocessor controlled intelligent position sensor as well as an analogue integrated travel sensor system (stroke)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A533m0
