**Overall Length:**

6.125 inches

**Overall Width:**

3.875 inches

**Current Type:**

Dc

**End Application:**

Dc powered pressure transducer

**Voltage Rating:**

Between 23.5 volts and 32.5 volts

**Product Name:**

Inavy-transducer assembly

**Special Features:**

Special feature: pressure sensor/bottom cover assembly is field replaceable. Temperature range 32-149 degrees f; overpressured: 200% of specified range; burstpressure: 300% of specified range; life expectancy is 40, 000 hrs;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T145-b
