Product Name:

N4692a 2-port mw electronic calibration module, 2.92 mm

Special Features:

The agilent pna and ena series of network analyzers controls the module directly via the usb interface; 10 mhz to 40 ghz frequency range; usb interface for direct control with pna and ena series of network analyzers; alternative 85097b interface when used with other analyzers; full two-port calibration with a single connection; reduced connector wear; nist traceable accurate calibrations; reliable solid-state switching; width, 50.80 mm, length, 111.00 mm

Functional Description:

Calibrating network analyzers

Special Markings:

Caution label

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
